

Mariam Emad Nabih

Product Designer

+201014330057 | Egypt | [Portfolio](#) | marmaremad31@gmail.com | [LinkedIn](#) | [Behance](#) | [Dribbble](#)

Experienced and user-obsessed Product Designer with a hybrid background in Software Engineering and over 5 years in digital product development, including more than 3 years in UI/UX design. Specializes in designing and optimizing complex B2B systems, admin dashboards, mobile applications, and web products that align with business goals and user needs. Currently owning the end-to-end product design process across multiple Ovarc products, from product discovery, user research, and journey mapping to delivering scalable, research-backed solutions. Experienced in collaborating within cross-functional agile teams to translate business requirements into intuitive experiences that drive measurable impact.

EDUCATION

B.Sc. in Computer Science

Beijing Jiaotong University

Beijing, China

2016 – 2021

EXPERIENCE

Product Designer

Ovarc

Maddi, Egypt

Sep 2025 - Present

- Redesigned the payment flow, enabling users to clearly identify the exact amount required for each invoice, reducing offline payments and improving successful online payment completion.
- Own the end-to-end product design lifecycle across multiple Ovarc products, from product discovery, user research, and journey mapping to high-fidelity designs, developer handoff, and continuous product improvements.
- Led the end-to-end design of the Incorporation Product for company formation, from user research and flow definition to implementation.
- Revamped the Ovarc website to improve usability and better communicate the platform's services.
- Designed the Salary Calculator application, creating an intuitive experience that simplifies salary calculations for users.
- Designed and delivered new features across the Ovarc platform to continuously improve the product experience.
- Continuously optimized existing experiences using user feedback and performance insights.
- Collaborated closely with product managers and engineers in cross-functional agile teams to align design solutions with business goals and ensure seamless implementation.
- Supported marketing initiatives by designing email templates, social media creatives, and marketing materials.

UI/UX Designer

Loccamp

Giza, Egypt

Nov 2024 – May 2025

- Designed admin dashboards & mobile apps for school systems, improving communication & engagement.
- Led design for a recruitment platform, delivering end-to-end user journeys, from job search to CV upload and interview scheduling.
- Partnered with product and engineering teams to define feature scope, user goals, and ensure scalable UI systems and consistency across platforms.

UI/UX Designer

Huawei Technologies Co., Ltd.

Cairo, Egypt

Mar 2024 – Nov 2024

- Designed intuitive dashboards to track financial transactions & KPIs between Huawei & its partner companies.
- Played a key role in adapting UI patterns and visual direction to suit Chinese design sensibilities, aligning layout, prioritizing hierarchy and usability, content flow, & interaction logic with cultural preferences to improve adoption across regional teams.

Software Engineer

Huawei Technologies Co., Ltd.

Cairo, Egypt

May 2022 – Mar 2024

- Created the backend of an IT Team performance dashboard for internal ticket tracking. This platform tracked ticket handling performance across IT team members, including ticket volume, satisfaction scores, and monthly/quarterly/yearly KPIs.
- Built APIs and logic for processing, validating, and visualizing large datasets.

Software Engineer Intern

Cairo, Egypt

Certificates

UX Management: Strategy & Tactics

Feb 2026

Interaction Design Foundation

- What your UX team should be doing in order to grow your UX efforts across the organization.
- Why it's important that your senior management team gets educated on, & possibly involved in, UX.
- Best practices to manage and support a UX designer and wider UX team.
- Certificate Link: <https://ixdf.org/members/mariam-emad-2/certificate/course/3bd7254b-f970-49db-9124-866b26ca5335?certificateType=course>

Agile Methods for UX Design

Jun 2025

Interaction Design Foundation

- Evaluate the agility of teams, identify agile patterns and anti-patterns. Adapt to agile teams by designing collaboratively within sprint constraints. Create iterative, experiment-ready deliverables.
- Certificate Link: <https://lnkd.in/dxqDQ7PF>

Conducting Usability Testing

Apr 2025

Interaction Design Foundation

- Design a user test and set test goals to evaluate products and interfaces.
- Run a user test smoothly and effectively, avoiding common mistakes throughout.
- Provide actionable insights to stakeholders through reports on the results of test observations.
- Certificate Link: <https://www.interaction-design.org/members/mariam-emad-2/certificate/course/bf1b9de6-a984-43af-95ef-5931a7fb7503?r>

Fundamentals of Graphic Design

Jul 2024

California Institute of the Arts

- Implement the fundamentals of color: visual, rhythm, and pattern in design.
- Create your own series of images using different image making techniques.
- Use scale, weight, direction, texture, and space in a composition.
- Certificate Link: <https://www.coursera.org/account/accomplishments/verify/A9JXA6ADXGFJ>

Start the UX Design Process: Empathize, Define, and Ideate

Feb 2024

Google

- Course Outcomes: (Human Centered Design - User Story - Competitive Analysis - User Research - Persona Development - User Flows - Design Thinking - Web Content Accessibility)
- Certificate Link: <https://www.coursera.org/account/accomplishments/verify/A9JXA6ADXGFJ>

Advanced Data Analysis

May 2021

Udacity

- Course Outcomes: Data analysis process of questioning, wrangling, exploring, analyzing, and communicating data, how to work with data in Python using libraries like NumPy and Pandas.
- Certificate Link: <https://www.coursera.org/account/accomplishments/verify/A9JXA6ADXGFJ>

Skills

Design Strategy & Execution:

User Research & Analysis - Design Thinking - Competitive Analysis - User Personas - Information Architecture (IA) - User Flows - Wireframing (Low to high fidelity) - Design Systems Usage - Prototyping - Usability Testing.

Soft Skills:

Mentorship - UX Storytelling - Stakeholder Presentation - Agile Collaboration - Remote Team Communication.

Workshop Facilitation - Collaboration with Cross-Functional Teams - Analytical Thinking - Problem-Solving.

Tools & Tech:

Figma (Auto layout, Tokens, Variables) - Claude AI - Claude Design - Adobe XD - Framer - FigJam - Photoshop - Premiere Pro - Jira - Programming Languages (Python / Javascript / HTML / CSS) - Vue.js - OpenAI Tools - Slack (for team communication)

Interests

- Led university teams in planning student-led events, from concept to execution, coordinating logistics and design.
- Erasmus+ Youth Exchange Program — Latvia (September 2025): Participated in an international youth exchange focused on cross-cultural collaboration, teamwork, leadership, and intercultural communication.
- Tennis, Photography, Travelling, Volunteering, and Event Organizing.
