Mariam Emad Nabih

Product Designer | UI/UX Designer

+20 101 433 0057 | Cairo, Egypt (open to relocation) | marmaremad31@gmail.com

Portfolio: ruyinqc.github.io/Mariam-s-Portfolio | LinkedIn: linkedin.com/in/mariamemadnabih | Behance | Dribbble

Product Designer with 6 years in digital product development, including nearly 3 years in UI/UX design and a strong software engineering background. I design complex B2B platforms, admin dashboards, mobile apps and web products end to end, from discovery and user research to high-fidelity design and developer handoff. I prototype and build with code and AI tools (Claude Code, HTML/CSS/JavaScript), work closely with product managers and engineers in agile teams, and collaborate across cultures in Arabic, English and Chinese.

EDUCATION

B.Sc. in Computer Science — *Beijing, China*
Beijing Jiaotong University — *2016 – 2021*

EXPERIENCE

Product Designer — *Cairo, Egypt*
Ovarc — *Sep 2025 – Present*

- Redesigned the Invoices & Payments module end to end. Customers can now pay several invoices at once and see their total, wallet balance and exact amount due before paying. Shipped in 2.5 weeks, with payment completion now above 90%, which cut the finance team's manual reconciliation.
- Found the root cause of wrong payments: people paid the first number they saw instead of the net amount after wallet deduction. Fixed it with a clear information hierarchy, labelled sections and a single "Pay $X" action.
- Own the end-to-end design process across multiple Ovarc products, from product discovery, user research and journey mapping to high-fidelity designs, developer handoff and continuous improvement.
- Enhanced and maintained the Ovarc design system, keeping components and patterns consistent across products.
- Led end-to-end design of the Incorporation product for company formation, from user research to implementation.
- Designed the Salary Calculator application, creating an intuitive experience that simplifies salary calculations for users. Live on the App Store.
- Collaborated closely with product managers and engineers in cross-functional agile teams to align design solutions with business goals and ensure seamless implementation.

UI/UX Designer — *Giza, Egypt*
Loccamp — *Nov 2024 – May 2025*

- Designed admin dashboards and mobile apps for school systems, improving communication and engagement.
- Led design for a recruitment platform, delivering end-to-end user journeys from job search to CV upload and interview scheduling.
- Partnered with product and engineering to define feature scope and user goals, keeping the UI scalable and consistent across platforms.

UI/UX Designer — *Cairo, Egypt*
Huawei Technologies Co., Ltd. — *Mar 2024 – Nov 2024*

- Designed dashboards to track financial transactions and KPIs between Huawei and its partner companies.
- Adapted UI patterns, hierarchy, content flow and interaction logic to Chinese design conventions to improve adoption across regional teams.

Software Engineer — *Cairo, Egypt*
Huawei Technologies Co., Ltd. (Intern from Jul 2021) — *Jul 2021 – Mar 2024*

- Built the backend of an internal IT performance dashboard tracking ticket volume, satisfaction scores and monthly, quarterly and yearly KPIs.
- Built APIs and logic to process, validate and visualise large datasets.

SKILLS

Design: User Research, Usability Testing, Design Thinking, Competitive Analysis, Personas, Information Architecture, User Flows, Wireframing, Prototyping, Design Systems, B2B and Dashboard UX

Tools: Figma (Auto Layout, Variables, Tokens), FigJam, Framer, Jira, Claude Design, Claude Code

Code: HTML, CSS, JavaScript, Vue.js, Python

Collaboration: Cross-functional Agile Teams, Stakeholder Presentations, Workshop Facilitation, UX Storytelling, Mentorship

LANGUAGES

Arabic (Native) | English (Fluent) | Chinese (Fluent) | Spanish (A1)

CERTIFICATES

- UX Management: Strategy & Tactics, Interaction Design Foundation (2026)
- Agile Methods for UX Design, Interaction Design Foundation (2025)
- Conducting Usability Testing, Interaction Design Foundation (2025)
- Start the UX Design Process: Empathize, Define, and Ideate, Google (2024)

LEADERSHIP & VOLUNTEERING

- Erasmus+ Youth Exchange, Latvia (Sep 2025): cross-cultural teamwork and leadership with participants from across Europe.
- Led university teams in Beijing to plan and run student events, from concept and design to logistics.
- Volunteering and event organising. Interests: tennis, photography, travelling.
